Delaware Wages 2024

The Information Technology Fundamentals (ITF) program is designed for students and career changers who are interested in Information Technology, but have limited technical knowledge of computing systems, determine if a career in IT is right for them.

ITF provides a balance of self-paced, and instructor facilitated learning. Participants explore foundational concepts related to computer hardware and software, networking, databases, programming, information systems, and data security and perform real-world tasks associated with various IT fields.

Participants are prepared for the CompTIA ITF certification, which is completed at the end of the course.
